Civil Society/Community Engagement Specialist

A local civil society/community engagement specialist with at least five (5) years of local experience in stakeholder analysis and consensus building, including community and grass-root engagement and consultation.

The specialist should have experience in managing community/stakeholders' consultation workshops - and making them meaningful and objective oriented workshops.

The specialist will need to demonstrate:

- Must have experience in designing, organizing and implementing participatory and consultation processes;
- Must be knowledgeable and have expertise with the similarities and differences for effective community consultation and participation across the different regions of Guyana;
- Must be able to lead a team capable of holding regional workshops simultaneously;
- Must be familiar with existing policies and regulations regarding stakeholder communication, engagement, and consultation.
